

**To which period do the specified fees relate?**

The fees that you see behind the respective offers are the complete contributions for the current period. Sports travel is an exception.

**Can I also pay the course fee in cash?**

No, this is not possible in principle. The University Sports Center, as the central institution of the university, is not allowed to accept cash. Cash payments are therefore not possible either in the office or with the instructors.

**How do I pay for the sport offers I have booked?**

The University Sports Center will debit the corresponding amount from your account. In principle, the debits are made using the SEPA direct debit procedure.

**I was still able to get a place on the course, but only after the debit period. How can I pay the fees now?**

After the main debit about three weeks after the official start of online registration, further debits are made continuously. However, delays can result from the SEPA regulations.

**Why am I charged a processing fee for a non-executed direct debit?**

This processing fee will be charged to us by the banks if your bank details are incorrect or your account is insufficient. Unfortunately we have to pass this amount on to you.
